RESOLUTION NO. __5414__

</div>

A RESOLUTION authorizing the execution of an
interlocal agreement among the Cities of Bellevue,
Kirkland, and Redmond to create a joint
transportation modeling project.

WHEREAS, using state-of-the-art computer software and highly-trained
staff, the City of Bellevue has developed a highly-sophisticated
transportation model and is able to analyze the potential traffic impact
of development and transportation plans on city streets; and

WHEREAS, Bellevue's use of the traffic model is limited if we cannot
easily exchange information with neighboring jurisdictions because of
different data bases and traffic modeling approaches; and

WHEREAS, Transportation Forecast Model Development and Maintenance
Program would expand Bellevue's transportation modeling approach to the
Cities of Kirkland and Redmond and the Interlocal Agreement would allow
Kirkland and Redmond to use Bellevue's computer software through terminals
in their respective City offices; now, therefore,

THE CITY COUNCIL OF THE CITY OF BELLEVUE, WASHINGTON, DOES RESOLVE AS
FOLLOWS:
