Subject: AARON ESTATES

David Sherrard has called to our attention a problem with Resolution No. 5973, adopted a year ago, which approved the preliminary plat of Aaron Estates. At the meeting, Mr. Springman moved an amendment to add additional language to condition 8 of the resolution (allowing the developer to opt out of the affordable housing requirement, in which case he loses density bonus). It was approved 7-0. See minutes of February 5, 1996 meeting. Apparently that language was never added to the written resolution. See Resolution 5973.

The plat is now in the final plat process and the developer has elected to opt out. It was then that David discovered the language was not in the resolution. It seems to me that since they, in fact, adopted the additional language we can just have the mayor sign a corrected resolution with the omitted language added, with a footnote indicating the correction. Please give me a call to discuss.
